

The Net Zero Teesside Order – Guide to Land Plan Plots

The purpose of this document is to report changes to plot numbers and the land powers sought. Column 4 of the table provides an explanation for the changes between version 1 of the Book of Reference submitted in July 2022 and version 2 that is now being submitted pursuant to the Applicants’ change application. Column 5 of the table sets out which Work Numbers are relevant to each plot.

In respect of Work Number 6 there is optionality in terms of the means of crossing the River Tees – Option 2 (HDD) and Option 3 (Sembcorp Tunnel Number 2). Where a plot is required solely for one of the Work Number 6 options, that is specified in Column 5 of the table. The work areas for Option 2 and Option 3 are otherwise the same and therefore references to Work Number 6 in Column 5 of the table indicate that the plot is required for either of the Work Number 6 options.

| Version | Plot No. | Acquisition Type | Reason For Plot No. Change | Work Nos. Relevant to Plot |
|---------|----------|------------------|--|----------------------------|
| 2 | 1 | New Rights | Plot 1 split to create plot 1a as a result of a change in acquisition type. Plot 1 remains as New Rights. | 6 |
| 2 | 1a | Temporary Use | Plot 1a created as a result of a change in acquisition type. | 6 |
| 2 | 2 | New Rights | Plot 2 split to create plot 2a as a result of a change in acquisition type. Plot 2 remains as New Rights. | 6 |
| 2 | 2a | Temporary Use | Plot 2a created as a result of a change in acquisition type. | 6 |
| 2 | 3 | New Rights | Plot 3 split to create plot 3a as a result of a change in acquisition type. | 6 |
