These are agreed, save that in sub-paragraph (b) of the paragraph headed 'Indemnity' the Applicant has added additional words which allows NZT to take on the conduct of claims made against RBT which would be claimed against NZT under the indemnity ( <i>"which, if it withholds such consent, has the conduct of any settlement or compromise of any proceedings necessary to resist the claim or demand"</i> ).  This wording is sought by the Applicant (but is not agreed by RBT) on the basis that, in the absence of an agreed cap on the indemnity between the Parties, the Applicant should be able to take on claims to ensure that it at least has the possibility of minimising its liability, where RBT would			be concluded in November. An updated SoCG will be submitted once this has been able to be achieved.  Drafts for option agreement, laydown lease and other project related service agreements have been through several rounds of amendments between the Applicants' solicitors and RBT's solicitors and are in the process of finalisation.
