MMO Licence Application

Variation Request 1 ACCEPTED

Request Date

15-MAR-2017

Requested By

Colin Harrison

Licence(s) to be varied

L/2017/00012/1 (Marine Licence)

What would you like to vary about your current licence(s)/response(s)?

To include the removal of silt sediment which has accumulated on the grounding bed situated within the Dry dock which is now open and cofferdam partially removed

Why would you like to vary your licence(s)/response(s) in this way?

To allow the precise grounding position of barges onto the grounding bed.

The grounding bed is 200 meters long and 70 meters wide. Situated within the Dry Dock

In order not to disturb the Grounding Bed the operation would be carried out by divers using hand suction equipment dispersing the silt into the surrounding area within the water body

The maximum anticipated amount that may have to be removed in any campaign would be in the region of 700 dry tons.

Ref. for Sampling Please see Sam/2015/00048

What date would the varied licence(s)/response(s) come into effect?

20-MAR-2017

Closed Date

07-APR-2017
