Conservation & Listed Building Consultation

Comment type:

No Objection

Comments:

No objection. The significance of heritage assets is considered to be safeguarded as required by Policy HE2 of the adopted Local Plan and it is considered that the public benefit requirement outlined in policy HE3 has been met. The intention to submit a written Scheme of archaeological investigation along with a archaeological watching brief during construction is likely to be appropriate, although the Council's archaeological consultant will no doubt provide expert scrutiny of those mitigation proposals.
