Comments

The application seeks outline permission for the erection of up to 92,903 sqm of general industrial development and storage and distribution uses with office accommodation on land within the South Tees Development Corporation Area.

Policy LS4 of the Redcar and Cleveland Local Plan supports the delivery of significant economic growth and job opportunities in this area and also recognises that the Council will support its regeneration through implementing the South Tees Area SPD.

Furthermore, 184 net Ha of land is allocated for employment uses at South Tees through Policy ED6 of the Redcar & Cleveland Local Plan 2018. This policy states that specialist uses, such as heavy processing industries and port logistics, will be focussed upon areas which include land at South Tees. In these areas, proposals falling within Use Classes B1, B2, B8 and other suitable employment related sui-generis uses will be supported.

The proposals also include the provision of office accommodation under Use Class E. Development of this type is classed as a main -town centre use within the NPPF and would normally be directed to town centre locations. However, the planning statement confirms that the proposal is for no more than 10% of the total floorspace to be provided for this use. In this case, it is confirmed that the office accommodation is to be ancillary to the employment uses and could positively contribute to the employment development on the site.

Overall, it is considered that the principal of the development is in line with the policies of the Local Plan which states, under Policy ED6, that proposals at South Tees which positively contribute to growth and regeneration will be supported.

The development of the South Tees area is also supported through the South Tees Area SPD and it is considered that any proposals on this site should have regard to the development principles contained within this SPD. It should be ensured that development does not result in an adverse effect on the integrity of the neighbouring Teesmouth and Cleveland Coast SPA and Ramsar site and underlying SSSI in accordance with Policy N4.
