Waste Storage and Sprinkler Tanks GA Plans & Elevations (Dwg No. 3020 Rev P1) received by the Local Planning Authority on 20/08/21

**REASON:** To accord with the terms of the planning application.

**Informative Note:** The applicant is advised that there are a number of conditions on the Outline Approval (R/2020/0357/OOM) that are required to be discharged and complied with in the implementation of the application hereby approved.

**Statement of Co-operative Working:** The Local Planning Authority considers that the application as originally submitted is a satisfactory scheme and therefore no negotiations have been necessary.

Signed:

**Andrew Carter**  
**Assistant Director Economic Growth**

Date: 10 September 2021

**YOUR ATTENTION IS DRAWN TO INFORMATIVE NOTES BELOW:**

**INFORMATIVE NOTE:**

The conditions above should be read carefully and it is your (or any subsequent developers) responsibility to ensure that the terms of all conditions are met in full at the appropriate time (as outlined in the specific condition).

Please note that in order to discharge any conditions, a fee is payable in respect to this.

Failure on the part of the developer to fully meet the terms of any conditions which require the submission of details prior to the commencement of development may result in the development being considered unlawful and may render you liable to formal enforcement action.

Failure on the part of the developer to observe the requirements of any other conditions could result in the Council pursuing formal action in the form of a Breach of Condition notice.

**APPROVAL INFORMATIVE:**

This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, byelaw, order or regulation.

Consent under the current Building Regulations may also be required for the development before work can commence.

**CATS Pipeline**

In addition to the statutory consultees, applicants should also consider what other stakeholders should be consulted. For example, in the case of any development taking place that may affect High Pressure Gas Pipelines, operated by CATS North Sea Limited on behalf of the owners of the pipeline, please consult with CATS North Sea Limited at [CATSpipeline@woodplc.com](mailto:CATSpipeline@woodplc.com) 01642 546404 CATS Terminal, Seal Sands Road, Seal Sands, Teesside TS2 1UB.

**County of Cleveland Act, 1987 – Facilities for Fire Fighting**

Section 5 of this Act requires that, where building regulation plans for the erection or extension of a building are deposited with the Council, the Council must reject the plans if it is not satisfied:

- That there will be adequate means of access for the Fire Brigade
- That the building or extension will not make means of access for the Fire Brigade to any neighbouring building inadequate
- If the building could be used for commercial or industrial purposes, that there is provision for installation of fire hydrants or other provision for an adequate supply of water for firefighting purposes.

**Appeals to the Secretary of State**

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.

If you want to appeal, then you must do so within the timeframes stated below:

- **12 weeks** of the date of this notice for a householder application/minor commercial application;
- **six months** of the date of this notice for other planning applications
- **8 weeks** in the case of any advertisement

using a form which you can get from the Secretary of State at **Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN, (Tel: 0303 444 5000)** or online at

<https://www.gov.uk/planning-inspectorate>. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances, which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to them that the local planning authority could not have granted planning permission for the proposed development or could not have it granted without the conditions it imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. In practice, the Planning Inspectorate does not refuse to consider appeals solely because the local planning authority based its decision on a direction given by them.

**Purchase Notices**

If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that they can neither put the land to a reasonably beneficial use in its existing state nor can they render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In the circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is

situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

### **Compensation**

In certain circumstances compensation may be claimed from the local planning authority if permission is refused or granted subject to conditions by the Planning Inspectorate on appeal or on reference of the application to them. These circumstances are set out in Section 114 and related provisions of the Town & Country Planning Act 1990.

### **The Highways Act 1980 (Sections 131, 133 and 171)**

Prior to commencing work on any development which entails interference with an adopted Highway a developer/contractor is required to obtain the consent of the Engineering (Highways Team). Such consent will not unreasonably be withheld but will be conditional upon obtaining a "Road Opening And Reinstatement" Consent and signing an "Undertaking To Pay For Works".

### **The Building Act 1984 (Section 80)**

Prior to commencing work on any development which entails the demolition of part, or all of a building a developer or contractor is required to obtain the consent of the Engineering Team. Consent will be conditional on the Local Authority receiving the appropriate forms. Forms can be obtained direct from the Engineering Team.
