OFFICIAL

FAO – Mr A Miller
Ref – R/2023/0179/SCP
Proposal – Scoping Opinion for Hygreen Hydrogen Project
Location – Land at the Foundry Site Teesworks and in the vicinity of Wilton International Lackenby and Grangetown near Redcar

Thank you for your letter of 7 March 2023 providing Network Rail with an opportunity to comment on the abovementioned Scoping Opinion.

With reference to the protection of the railway, the Environmental Statement should consider any impact of the scheme upon the railway infrastructure and upon operational railway safety. In particular, it should include a Transport Assessment to identify any HGV traffic/haulage routes that may utilise railway assets such as bridges and level crossings during the construction and operation of the site.

Please note that if the intention is to install cabling or a connection in support of the project through railway land, the developer will need an easement from Network Rail and we would recommend that they engage with us early in the planning of their scheme in order to discuss and agree this element of the proposals.

Kind regards

Matt Leighton
