Planning Application R/2023/0247/00M, Bottom Ash Facility & Associated Development, Prairie Site, Grangetown.

Thank you for your consultation on the above.

This proposal is located on a site previously assessed to be of low archaeological significance, due to its previous twentieth century steel industry uses, an absence of evidence for earlier structures or remains of archaeological interest, plus the comprehensive site preparation works probably undertaken during the middle of 2020 which removed or degraded surface features.

No archaeological mitigation measures are necessary and we therefore recommend that no archaeological conditions are required on any planning permission granted.

19th April 2023
